### AMAZI RISE

The terraces ascend through elevations at 4, 8, 12 and 14 metres to reach the full height of the rise at 18 metres above sea level, ensuring that each Amazi Rise home enjoys unobstructed ocean and horizon views.

Amazi Beach consists of an exclusive selection of beach villas, townhouses and chalets with stunning unobstructed panoramic ocean views from every home. Residents enjoy direct private beach access and family-friendly luxury beach club membership.

# The Archini- 04 Structure

INTRODUCING

The entire development is designed to be walkable, with footpaths that run throughout the site allowing residents and guests to explore and meander through the neighbourhoods easily.

AMAZI

Drawing inspiration from the beauty and diversity of Oman and the deep connection its people have with the land, SB Architects has created an authentic and organic feeling masterplan for Amazi, which fits seamlessly with the natural features of the site.

Embracing the local flora, the design team looked to the spectacular Wadi Darbat for inspiration, they assessed the shape and colour of the local rock formations, and analyzed edge conditions between land and ocean, to tease out the natural characteristics of the region and express them throughout different residential neighborhood.

When complete, Hawana Salalah will feature 500 exclusive residences. Additional amenities include a wellness center with a spa, gym, outdoor yoga platforms, and an abundance of outdoor spaces.

Amazi Bay will be a water activity hub with an aqua center; kid's play area; a nightlife island featuring a series of fine dining restaurants, a club, and waterfront bar; an aqua hut with beach courts, cabanas, jet skis, a beach bar, and a beach clubhouse.

Amazi is your home from home. The opportunity to own a rare waterfront residence, within a calm, serene coastal sanctuary at Hawana Salalah. This is an idyllic year-round destination, with alluring stretches of white sandy beaches that rival any Caribbean Island.

The carefully curated selection of Amazi chalets and villas are luxurious private waterfront homes featuring breathtaking lagoon, horizon, ocean or mountain views. These spacious private residences have been designed to enable residents to spend their days surrounded by water in supreme comfort and privacy, with the calming sound of the Arabian ocean close by.

Soaring 3.2m-high ceilings, coupled with lantern windows in the living areas, create spaces flooded with natural light. The entertainer's kitchen is intuitively designed and laid out to be a natural gathering space within the home. Natural Omani marble flooring is both stunningly beautiful and luxuriously cool underfoot. The villas' bedrooms deliver an inspired boutique luxury hotel aesthetic with a variety of calm neutral palettes that adds a sense of sanctuary to each room. The spacious master bedroom features a walk-in closet that is generous, beautifully tactile and designed to house even the most expansive of wardrobes. Each villa's living space spills out, through floor-to-ceiling glass doors, onto the private pool deck complete with bespoke wooden joinery deck and luxurious resort-style swimming pool.
